

# Security Tactics

## Detect Attacks

Detect  
Intrusion

Detect  
Service  
Denial

Verify  
Message  
Integrity

Detect  
Message  
Delay

## Resist Attacks

Identify  
Actors

Authenticate  
Actors

Authorize  
Actors

Limit  
Access

Limit  
Exposure

Encrypt  
Data

Separate  
Entities

Change  
Default  
Settings

## React to Attacks

Revoke  
Access

Lock  
Computer

Inform  
Actors

## Recover from Attacks

Maintain  
Audit Trail

Restore

Attack

System detects,  
resists, reacts or  
recovers
